T - Task Appropriateness

- *Human or AI? Will AI add value or just replace thinking?*
- **Teaching moment:** Justify your choice

A - Aim & Goals

- *Am I trying to produce something or learn something?*
- *Will AI help my learning/thinking/creativity or short-circuit it?*
- **The Push-up Test:** "Will this make me stronger or just save effort?"

S - Setup & Specificity

- *What context, constraints, or clarifications does AI need?*
- *What might go wrong without better instructions?*
- **Teaching tip:** Try both vague and specific prompts

K - Collaborate & Co-create

- *How can I work WITH AI rather than just using it?*
- *How might I use AI to surpass my own abilities?*
- **Advanced move:** "AI, help me improve this prompt..."

RETURNING: Evaluating Answers

E - Errors & Accuracy

- *Is this factually correct?*
- *What biases might be hidden here? (cultural, gender, political, linguistic)*
- **Red flags:** Overly confident claims, missing nuance, stereotypes

X - eXamine Evidence

- *Where did this information come from?*
- *Are citations accurate? (AI often hallucinates sources)*
- **Essential Habit:** Be skeptical and verify.

A - Alignment & Relevance

- *Does this actually solve my problem?*
- *Do I need more focus, depth or nuance?*
- **The "So What?" test:** Does this matter for my real goal?

M - More & Modify

- *How can I improve, clarify or expand this?*
- *What perspective is missing? Can I get something more unexpected?*
